

tracereader::read_single
_instr

tracereader::~~tracereader

tracereader::close

```
graph LR; A[tracereader::read_single_instr] --> C[tracereader::close]; B[tracereader::~~tracereader] --> C;
```

The diagram illustrates a control flow or dependency. Two white rectangular boxes on the left, labeled 'tracereader::read_single_instr' and 'tracereader::~~tracereader', have blue arrows pointing to a gray rectangular box on the right labeled 'tracereader::close'.
